

**Discussion Groups in the United States
November 2007**

The North American Menopause Society has compiled this list of women's groups that meet in your country to discuss menopause. This list is not a complete list, but includes those groups that know about our database and have asked to be included. The Society does not necessarily endorse or recommend any of these groups. However, we hope that this list will help in finding a group that is right for you.

Please note that this list is for the exclusive use of consumers looking for menopause discussion groups. Any unauthorized use is strictly prohibited.
