Program & Exhibit Guide

NAMS 2017 Annual Meeting

Philadelphia Marriott Downtown ▪ October 11–14, 2017
On behalf of the 2017 Scientific Program Committee, it is my pleasure to welcome you to historic Philadelphia, Pennsylvania, and the 28th Annual Meeting of The North American Menopause Society. We are delighted to share with you all the valuable information we have to offer in this multidisciplinary forum. That many of you travel long distances to be here speaks to just how important our work is.

Our meeting theme this year is Technology: Transforming the Menopause Transition. As with all our meetings, our focus is on the health and well-being of midlife women.

Highlights of This Year’s Meeting

During the Pre-Meeting Symposium, Musculoskeletal Health in Postmenopausal Women: Assessment and Management of Fracture Risk, co-chaired by Dr. Michael McClung, you'll hear from experts in bone health, geriatricians, orthopedic surgeons, and endocrinologists who will address clinical assessment; bone densitometry, including DXA best practices; and new imaging strategies, along with updates on pharmacologic therapy for osteoporosis and a discussion on preventing falls and improving muscle function.

In the Presidential Symposium, Dr. Marla Shapiro will discuss Social Media and Technology: Driving the Direction of Women’s Health how the media world is changing and how social media has revolutionized how we communicate. As healthcare providers and scientists, we often speak in a language that is only understood by our own community and, accordingly, is subject to misinterpretation. It is our responsibility and not the media’s alone to educate the consumer.

This year’s Keynote Address is Minimally Invasive Gynecologic Surgery: What the Menopause Practitioner Needs to Know, presented by Dr. Arnold P. Advincula, the Levine Family Professor of Women’s Health, Vice-chair of the Department of Obstetrics and Gynecology, Chief of Gynecology at the Sloane Hospital for Women, and the Medical Director at the Mary and Michael Jaharis Simulation Center at Columbia University Medical Center in New York. Dr. Advincula is a leader in minimally invasive surgical techniques and is one of the world’s most experienced minimally invasive gynecologic surgeons.

The NAMS/Pfizer Wulf H. Utian Endowed Lecture, Menopause, Estrogens, and Lipoprotein Particles, will be given by Dr. Ronald M. Krauss, Senior Scientist and Director of Atherosclerosis Research at the University of California, San Francisco, in Oakland. Dr. Krauss’s research program focuses on plasma lipoprotein metabolism and related traits that influence risk for coronary artery disease. His laboratory developed and applied the methodology that led to the discovery of a common genetically influenced atherogenic lipoprotein phenotype that underlies cardiovascular disease risk in patients with obesity, type 2 diabetes, and metabolic syndrome.

The NAMS/Kenneth W. Kleinman Endowed Lecture will be presented by Dr. Michael S. Policar, Clinical Professor of Obstetrics and Gynecology and Reproductive Sciences at the University of California San Francisco School of Medicine. His lecture, US Health Policy in 2017: What’s Changed, What’s Next?

This includes a timely discussion on healthcare reform and public policy in the current political climate as it relates to and influences women’s health.

In addition to the President’s Reception on Wednesday evening, please make sure that you have your ticket for the NAMS Donor Reception on Friday night, which provides a perfect opportunity to mingle and connect with your colleagues. As a reminder, the 2018 Scientific Committee, under the leadership of Dr. Gloria Richard-Davis, has begun planning for the 2018 meeting and looks forward to your topic suggestions.

I sincerely want to thank you for being at this important gathering and for your ongoing support of NAMS. Have a great meeting.

Andrew M Kaunitz, MD, NCMP
Chair, 2017 Scientific Program Committee
Wi-Fi in General Session

Wi-Fi access is available in the Grand Ballroom during the Annual Meeting. This offering is supported by grant funding from TherapeuticsMD.

CME Policy

The North American Menopause Society (NAMS) 2017 Annual Meeting has been planned and implemented in accordance with the Accreditation Council for Continuing Medical Education’s (ACCME) Essential Areas and Elements as well as its Standards for Commercial Support.

To maintain the independence of its continuing medical education (CME) activities and in accordance with the policies of the ACCME, NAMS has implemented a process in which everyone in a position to control the content of a CME activity, including faculty, moderators, planners, reviewers and staff, are required to disclose all “relevant financial relationships” with any “commercial interest.” Any actual or potential conflicts of interest that exist as a result of such financial relationships must be resolved before the CME activity begins. This helps to ensure that the Society’s CME activities are free of commercial bias. The financial relationships are disclosed in the accompanying Abstract Book.

Intended Audience

This activity is intended for physicians, nurses, nurse practitioners, physician assistants, pharmacists, and other healthcare providers who treat or counsel women at midlife and beyond.

Overall Educational Objectives

By participating in this live activity, attendees should be able to

- Recognize issues in clinical practice for women at all stages of the menopause spectrum—perimenopause, menopause, and postmenopause
- Evaluate postmenopausal bleeding, adnexal masses, vaginal health, and pelvic pain to determine the best standard of care
- Calculate cardiovascular risk factors after menopause
- Understand treatment options for migraines and mood disorders
- Manage musculoskeletal health concerns including dysmobility syndrome, arthritis, and joint pain
- Treat menopause symptoms with hormone or nonhormone therapies, based on the best evidence
- Provide appropriate care for midlife lesbian women
- Appreciate how social media and technology are driving the direction of women's health

Professional Accreditation

NAMS is accredited by the Accreditation Council for Continuing Medical Education (ACCME) to provide continuing medical education for physicians.

The North American Menopause Society (NAMS) designates this live activity for a maximum of 23.0 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

These credits include 21.0 AMA PRA Category 1 Credit(s)™ for the Annual Meeting lectures, symposia, and concurrent sessions and 2.0 AMA PRA Category 1 Credit(s)™ for the Meet the Experts Breakfast Sessions offered on Thursday and Friday morning (separate registration required).

Other healthcare providers who participate in this live activity will receive a certificate of participation. For nurses and other learners who need to report contact hours of pharmacotherapeutics education, NAMS has determined that this live activity includes a maximum of 9.0 hours of pharmacotherapeutics education.

Acknowledgment of Support

Some Plenary Symposia have received commercial support. As the provider of these Plenary Symposia, NAMS determines the topics and selects the faculty in all cases, and commercial supporters have no control or influence over content or faculty.

NAMS gratefully acknowledges partial or full support for Plenary Symposia from

Amag Pharmaceuticals
EndoCeutics, Inc.
Hologic
Pfizer Inc.
TherapeuticsMD

Speakers have made their slides available as handouts to attendees of the NAMS 2017 Annual Meeting. These handouts should be considered the intellectual property of the speakers or their acknowledged sources.

You may access the slides by going to www.menopause.org/2017-speaker-slides
Give NAMS your input and get the continuing education credit you’ve earned! Your responses to our survey questions will give NAMS valuable feedback on the meeting, help reinforce what you’ve learned, and shape the future of NAMS education with your suggestions. Our ability to continue to offer continuing education programs and to develop the learning experiences you need to take excellent care of women at midlife and beyond depends on your participation.

**Annual Meeting Evaluation Survey**

It’s simple and easy. Just use your smart phone, tablet, or computer to go to [www.menopause.org/2017-eval](http://www.menopause.org/2017-eval)

Click on the session you attended, and answer a few quick questions.

Once you click “done,” you’ll be redirected back to the evaluation page so that you can evaluate more sessions or give us your comments on the overall meeting.

At the end of the meeting, you can link right from this page to claim your education hours, too.

**Claim Your Credit After the Annual Meeting**

After you have attended all the sessions you will attend at the meeting, claim your hours of participation. Please complete your hours claim form **only once**.

Claim your hours of participation at [www.menopause.org/2017-agm-cme](http://www.menopause.org/2017-agm-cme)

Two forms are available: one for physicians and other learners and those who need only total hours of CME participation and the other for nurses or other learners who need a certificate of participation and a record of the hours of pharmacotherapeutics education.

You can also link to this form from the evaluation page [www.menopause.org/2017-eval](http://www.menopause.org/2017-eval)

Use the “Claim Hours Here” button at the bottom of the page.
Wednesday, October 11, 2017

7:30 AM - 8:00 AM  Pre-Meeting Symposium Registration and Coffee Service
Registration fee for the Pre-Meeting Symposium is separate from the Annual Meeting
Grand Ballroom (Salons A-D)

8:00 AM - 1:00 PM  Pre-Meeting Symposium
Musculoskeletal Health in Postmenopausal Women: Assessment and Management of Fracture Risk
Grand Ballroom (Salons E-L)

2:00 PM - 4:00 PM  NAMS Competency Examination (NCMP)
Grand Ballroom (Salons A-D)

4:30 PM - 4:45 PM  NAMS 2017 Annual Meeting Technology: Transforming the Menopause Transition
Welcome and Introductory Remarks
Grand Ballroom (Salons E-L)
Marla Shapiro, CM, MDCM, CCFP, MHSC, FRCPC, FCFP, NCMP
NAMS 2016-2017 President
Professor
Department of Family and Community Medicine
University of Toronto
Toronto, Ontario, Canada

4:35 PM - 4:45 PM  Andrew M Kaunitz, MD, NCMP
Chair, 2017 Scientific Program Committee
University of Florida Research Foundation
Professor and Associate Chairman
Department of Obstetrics and Gynecology
University of Florida College of Medicine—Jacksonville
Director Menopause and Gynecologic Ultrasound Services
Southside Women’s Health
Jacksonville, Florida

4:45 PM - 5:15 PM  The 2017 Hormone Therapy Position Statement of The North American Menopause Society
JoAnn V Pinkerton, MD, NCMP
Executive Director, The North American Menopause Society
Professor of Obstetrics and Gynecology and Division Director of Midlife Health
The University of Virginia Health System
Charlottesville, Virginia

5:15 PM - 6:15 PM  Plenary Symposium 1
Presidential Symposium
Social Media and Technology: Driving the Direction of Women’s Health
Moderator
Marla Shapiro, CM, MDCM, CCFP, MHSC, FRCP, FCFP, NCMP
NAMS President
Professor
Department of Family and Community Medicine
University of Toronto
Toronto, Ontario, Canada

5:15 PM - 5:35 PM  The Impact of Media on Medicine and Consumer Education
Marla Shapiro, CM, MDCM, CCFP, MHSC, FRCP, FCFP, NCMP
NAMS President
Professor
Department of Family and Community Medicine
University of Toronto
Toronto, Ontario, Canada

5:35 PM - 5:55 PM  Mobile Health Technologies in Clinical Care and Research
Claudio N Soares, MD, PhD, FRCP, MBA
Professor of Psychiatry, Queen’s University School of Medicine
Kingston, Ontario, Canada
Executive Lead, Canadian Biomarker Integration Network for Depression (CAN-BIND)
St. Michael’s Hospital, University of Toronto
 Toronto, Ontario, Canada

5:55 PM - 6:15 PM  Improving Patient Engagement and Outcomes Through Novel Technology
Mr Carlos Rodarte
Founder and Managing Director
Volar Health, LLC
Cambridge, Massachusetts

6:15 PM - 8:00 PM  President’s Reception
Independence and Liberty Ballrooms, Headhouse Tower (3rd Flr)

8:00 PM - 9:00 PM  Meet and Greet for Recipients of Pfizer Medical Residents, Fellows, and DNP-in-Training Awards
Conference Rooms 401-403 (4th Flr)
Thursday, October 12, 2017

Meet the Experts CME Breakfast Sessions
Liberty Ballroom, Headhouse Tower (3rd Flr)

Continental Breakfast for Registrants of the Annual Meeting
Grand Ballroom (Salons A-D)

Keynote Address
Grand Ballroom (Salons E-L)

Introduced by
Andrew M Kaunitz, MD, NCMP
Chair, 2017 Scientific Program Committee
University of Florida Research Foundation
Professor and Associate Chairman
Department of Obstetrics and Gynecology
University of Florida College of Medicine—Jacksonville
Director Menopause and Gynecologic Ultrasound Services
Southside Women’s Health
Jacksonville, Florida

Minimally Invasive Gynecologic Surgery: What the Menopause Practitioner Needs to Know
Arnold P Advincula, MD, FACOG, FACS
Levine Family Professor of Women’s Health
Vice-Chair, Department of Obstetrics and Gynecology
Chief of Gynecology, Sloane Hospital for Women Medical Director, Mary and Michael Jaharis Simulation Center
Columbia University Medical Center
New York, New York

Q&A With Audience

9:15 am - 10:45 am
Plenary Symposium 2
Addressing Vaginal Health and Pelvic Pain
Supported in part by grant funding from
Amag Pharmaceuticals
EndoCeutics, Inc.

Moderator
Risa Kagan, MD, FACOG, CCD, NCMP
Clinical Professor, Department of Obstetrics, Gynecology, and Reproductive Sciences, UCSF
East Bay Physicians Medical Group
Berkeley, California

Treating Vulvovaginal Atrophy/Genitourinary Syndrome of Menopause: Lubricants, Moisturizers, and Vaginal DHEA
Nick Panay, BSc, MBBS, FRCOG, MFSRH
Honorary Senior Lecturer, Imperial College
Director, West London Menopause and PMS Centre at Queen Charlotte’s and Chelsea Westminster Hospitals
London, England

Physical Therapy and Pelvic Muscle Health and Function in Menopause
Denise Hartzell Leggin, PT, MBA, WCS
Advanced Clinician II
Penn Therapy and Fitness—Good Shepherd
Penn Partners
Penn Medicine
University of Pennsylvania Health System
Radnor, Pennsylvania

Q&A With Audience

**Effects of TX-001HR on Uterine Bleeding Rates in Menopausal Women With Vasomotor Symptoms**

Steven R Goldstein, MD, FACOG, CCD, NCMP

#### 5:15 PM - 5:30 PM

**TX-001HR Improved Quality of Life in Menopausal Women With Vasomotor Symptoms**

James A Simon, MD, CCD, NCMP, IF, FACOG

---

### Plenary Symposium 8

**Advances in Breast Imaging**

*Supported in part by grant funding from*

Hologic

*Moderator*
Stephanie S Faubion, MD, FACP, NCMP, IF

**2:00 PM - 3:00 PM**

**Summary of Outcomes of Tomosynthesis Screening at the University of Pennsylvania**

Emily F Conant, MD
Professor and Chief, Division of Breast Imaging
Vice Chair of Faculty Development, Department of Radiology
Professor of Radiology, University of Pennsylvania
Philadelphia, Pennsylvania

**2:30 PM - 3:00 PM**

**Molecular Breast Imaging: Functional Imaging to Unveil the Hidden Cancer Reservoir in Dense Breasts**

Deborah J Rhodes, MD
Associate Professor of Medicine
Mayo Clinic
Rochester, Minnesota

**3:00 PM - 3:30 PM**

**Q&A With Audience**

**3:30 PM - 4:15 PM**

**Refreshment Break**

Franklin Hall (4th Floor)
### Concurrent Session 2
**Presentation of Abstracts**
Grand Ballroom (Salons A-B)

**Moderator**
Katherine M Newton, PhD, RN

### Concurrent Session 3
**Presentations From the Mexican Leadership**
Grand Ballroom (Salons C-D)

**Moderator**
Dr. José Roberto Silvestri Tomassoni  
President of AMEC  
Mexico City

(Continued in next column)

### Concurrent Session 3 (Continued)

**Speakers**

**Correlación de la composición corporal y cambios de PTH en el climaterio**

Dr. Marcelino Hernández Valencia  
Unidad de Investigación de Enfermedades Endocrinas/Endocrine Research Unit  
National Medical Center, Instituto Mexicano del Seguro Social (IMSS)  
Mexico City, Mexico

**Frontera de la enfermedad ósea, osteopenia y osteoporosis y fracturas vertebrales cohort de 930 mujeres mexicanas con intervención integral en postmenopausia en Perinatología**

Dr. Guillermo Federico Ortiz Luna  
Coordinador de peri y postmenopausia  
Chief of Peri and Postmenopausal Department, Instituto Nacional de Perinatología (INPER)  
Mexico City, Mexico

**Análisis subjetivo en la indicación de Terapia Hormonal**

Dr. Fernando Sánchez Aguirre  
Chief of the Division of Gynecology and Obstetrics  
Hospital Ángeles Mexico, Ex-President of AMEC  
Mexico City, Mexico

**Prevalencia de hipercaleciuria en pacientes con postmenopausia en el Hospital de Ginecología y Obstetricia No. 3 Centro Medico La Raza, IMSS**

Dra. María Antonia Basavilvazo Rodríguez  
Coordinadora de comité de derecho a la salud de la mujer  
Coordinating Committee of the right to health of women, FEMECOG  
Mexico City, Mexico

**Diferencias en el primer episodio depresivo y un episodio depresivo recurrente que se presenta en la perimenopausia**

Dra. Mónica Flores Ramos  
Catedrático CONACYT  
Comisionado al Instituto Nacional de Psiquiatría Ramón de la Fuente Muñiz  
Mexico City, Mexico

**Plenary Symposium 10**

*Improving Evidence for Millions of Women: The MsFLASH Vaginal Health Trial*

*Moderator*

**Andrea Z LaCroix, PhD**  
Professor and Chief of Epidemiology  
Director, Women’s Health Center of Excellence  
Family Medicine and Public Health  
University of California, San Diego  
San Diego, California

10:45 AM – 11:45 AM  

**Speakers**

*Design of the MsFLASH Vaginal Health Trial and Characteristics of Study Participants*

**Susan D Reed, MD, MPH**  
Research Director, Women’s Reproductive Health Research Program  
Professor, Department of Obstetrics and Gynecology, Epidemiology  
University of Washington School of Medicine  
Chief of Service, Obstetrics and Gynecology  
Harborview Medical Center  
Seattle, Washington

**Comparison of Mass Mailings to Facebook Ads for Recruitment of Midlife Women With Bothersome Vaginal Symptoms**

**Katherine Adams Guthrie, PhD**  
Member, Public Health Sciences Division  
Fred Hutchinson Cancer Research Center  
Seattle, Washington

**Effects of Vagifem Versus Replens Versus Placebo on Most Bothersome Vaginal Symptoms**

The North American Menopause Society developed the Corporate Liaison Council to foster the interchange of ideas among commercial supporters of the Society, leading to new NAMS initiatives through which the Society’s Mission can better be achieved. In 2017, 13 companies became members of the NAMS Corporate Liaison Council. The Society is particularly grateful for their input and special support of NAMS’ educational efforts. Representatives will have jade ribbons on their name badges; please be sure to thank them for their support.

At this year’s Annual Meeting, three exciting networking events are planned—each designed to encourage a lively interchange among participants, their registered guests, commercial exhibitors, and grantors. You won’t want to miss them!

**President’s Reception**

NAMS President Marla Shapiro, CM, MDCM, CCFP, MHSC, FRCP, FCFP, NCMP, invites all registered participants and their registered guests to attend the President’s Reception held immediately after Plenary Symposium 1.

6:15 PM – 8:00 PM

**WEDNESDAY, OCTOBER 11, 2017**

**INDEPENDENCE AND LIBERTY BALLROOMS, HEADHOUSE TOWER (3RD FLR)**

**Poster Session and Wine and Cheese Reception**

Enjoy the refreshments and hors d’oeuvre while viewing this year’s posters and discuss the findings with the authors, then visit the Exhibit Hall where you can learn about products and services from industry representatives.

6:00 PM – 7:00 PM

**THURSDAY, OCTOBER 12, 2017**

**FRANKLIN HALL F (4TH FLR)**

Supported by grant funding from EndoCeutics, Inc.

**Donor Cocktail Party**

Join us on Friday, October 13, for the Donor Cocktail Party, where you will enjoy appetizers and specialty cocktails. A donation of $250 or greater per person is required to attend the Donor Cocktail Party. A donation card is included in your briefcase.

5:45 PM – 6:45 PM

**FRIDAY, OCTOBER 13, 2017**

**HEADHOUSE TOWER LOUNGE (9TH FLR)**

All NAMS networking events are limited to adults who are officially registered and wearing name badges.
INTRAROSA™ (prasterone) is a steroid indicated for the treatment of moderate to severe dyspareunia, a symptom of vulvar and vaginal atrophy, due to menopause.1

**Demonstrated Efficacy**
Demonstrated to significantly decrease moderate to severe dyspareunia due to menopause

**Non-Estrogen Based, Converts to Estrogens and Androgens**
Prasterone is a precursor that is locally converted to estrogens and androgens with minimal systemic exposure. *The mechanism of action of INTRAROSA is not fully established1,2

**Once-Daily Treatment**
Individually wrapped vaginal inserts with disposable applicators

**No FDA Boxed Warning**
No restrictions on duration of use

**Important Safety Information**
INTRAROSA is contraindicated in women with undiagnosed abnormal genital bleeding. Estrogen is a metabolite of prasterone. Use of exogenous estrogen is contraindicated in women with a known or suspected history of breast cancer. INTRAROSA has not been studied in women with a known history of breast cancer.

TO HELP SUPPORT PATIENT AFFORDABILITY AND ACCESS

THE INTRAROSA™ PATIENT COPAY SAVINGS CARD

Your Eligible† INTRAROSA Patients
PAY $0 copay
for the first 28-day supply prescription

PAY NO MORE THAN $25 copay
per 28-day supply for each following prescription

Offer valid on up to 12 uses for commercially insured patients with a valid prescription for INTRAROSA. A valid prescriber ID# is required on the prescription. Limitations apply.

Samples Now Available
AMAG Pharmaceuticals offers a 2-week sample package of INTRAROSA vaginal inserts with disposable applicators.

1Eligibility requirements and patient out-of-pocket expense may vary. This offer is not valid for patients enrolled in federal or state health programs, including but not limited to Medicare, Medicaid, or TRICARE. Visit IntrarosaHCP.com for full terms and conditions.

Important Safety Information (cont’d)
In four 12-week randomized, placebo-controlled clinical trials, the most common adverse reaction with an incidence ≥2 percent was vaginal discharge. In one 52-week open-label clinical trial, the most common adverse reactions with an incidence ≥2 percent were vaginal discharge and abnormal Pap smear.

To report SUSPECTED ADVERSE REACTIONS, contact AMAG Pharmaceuticals at 1-877-411-2510 or FDA at 1-800-FDA-1088 or www.fda.gov/medwatch.

Please see the previous page for additional Important Safety Information and next page for a Brief Summary of full Prescribing Information.
Brief Summary: Consult full Prescribing Information for complete product information.

CONTRAINDICATIONS
Undiagnosed abnormal genital bleeding: Any postmenopausal woman with undiagnosed, persistent or recurring genital bleeding should be evaluated to determine the cause of the bleeding before consideration of treatment with INTRAROSA.

WARNINGS AND PRECAUTIONS Current or Past History of Breast Cancer
Estrogen is a metabolite of prasterone. Use of exogenous estrogen is contraindicated in women with a known or suspected history of breast cancer. INTRAROSA has not been studied in women with a history of breast cancer.

ADVERSE REACTIONS Clinical Trials Experience
Because clinical trials are conducted under widely varying conditions, adverse reaction rates observed in the clinical trials of a drug cannot be directly compared to rates in the clinical trials of another drug and may not reflect the rates observed in practice.

In four (4) placebo-controlled, 12-week clinical trials [91% - White Caucasian non-Hispanic women, 7% - Black or African American women, and 2% - “Other” women, average age 58.8 years of age (range 40 to 80 years of age)], vaginal discharge is the most frequently reported treatment-emergent adverse reaction in the INTRAROSA treatment group with an incidence of ≥2 percent and greater than reported in the placebo treatment group. There were 38 cases in 665 participating postmenopausal women (5.71 percent) in the INTRAROSA treatment group compared to 17 cases in 464 participating postmenopausal women (3.66 percent) in the placebo treatment group.

In a 52-week non-comparative clinical trial [92% - White Caucasian non-Hispanic women, 6% - Black or African American women, and 2% - “Other” women, average age 57.9 years of age (range 43 to 75 years of age)], vaginal discharge and abnormal Pap smear at 52 weeks were the most frequently reported treatment-emergent adverse reactions in women receiving INTRAROSA with an incidence of ≥2 percent. There were 74 cases of vaginal discharge (14.2 percent) and 11 cases of abnormal Pap smear (2.1 percent) in 521 participating postmenopausal women. The eleven (11) cases of abnormal Pap smear at 52 weeks include one (1) case of low-grade squamous intraepithelial lesion (LSIL), and ten (10) cases of atypical squamous cells of undetermined significance (ASCUS).
NAMS’ mission is to advance the field of women’s health through education and research. As part of that mission, each year NAMS supports several awards that recognize the efforts and contributions of individual members. I had the privilege of serving as the NAMS Awards Committee Chair this year. In that role, I had the opportunity to review all of the nominations submitted and to learn of the diverse and important contributions our members are making to advance our field. This year’s recipients have all made enormous contributions to NAMS, and I hope you will join me in celebrating and congratulating them when you see them during the Annual Meeting. I would also like to congratulate the recipients of the NAMS/Pfizer Medical Resident, Fellow, and DNP-in-Training reporter awards; the NAMS/Irwin J. Kerber scholarship; and the New Investigator awards.

Recognition Awards and Endowed Scholarship

NAMS/Thomas B Clarkson Outstanding Clinical and Basic Science Research Award
This award recognizes a NAMS member’s outstanding menopause-related clinical or basic science research.
Pauline M Maki, PhD
Chicago, Illinois

NAMS/Leon Speroff Outstanding Educator Award
This award recognizes a NAMS member’s excellence in menopause-related education of clinicians or the general public.
Risa Kagan, MD, FACOG, CCD, NCMP
Berkeley, California

NAMS/Ann Voda Community Service Award
This award recognizes a healthcare provider within the NAMS membership who has demonstrated outstanding community service.
Monica M Christmas, MD, FACOG, NCMP
Chicago, Illinois

NAMS Certified Menopause Practitioner of the Year
This award recognizes one current NAMS Certified Menopause Practitioner (NCMP) for outstanding work to his or her patients.
Ann L Steiner, MD, NCMP, FACOG
Radnor, Pennsylvania

2017 Awards Committee

Lisa C Larkin, MD, FACP, NCMP, IF—Chair

Mary Jane Minkin, MD, NCMP
Diane T Pace, PhD, APRN, FNP-BC, NCMP, FAANP
Cynthia A Stuenkel, MD, NCMP

NAMS Media Award
This award recognizes a media professional whose body of work, through any consumer media outlet (ie, print, television, radio, Internet), has served to expand the knowledge and understanding of menopause.
Ms Kristen Monaco
MedPage Today
New York, New York

NAMS/Lippincott Williams & Wilkins Best Paper of the Year Award
This award recognizes the best paper published in Menopause in 2016. The recipient is selected by the Editor-in-Chief of the journal.
Ellen W Freeman, PhD
Philadelphia, Pennsylvania

NAMS/Irwin J Kerber Membership Scholarship Endowment
This scholarship, provided through a generous endowment to the Society, provides one medical resident working in women’s health with a NAMS membership. The Society thanks long-time NAMS member Dr. Ralph Turner for his donations that will fund this scholarship for many years to come.
Ann Vale, MD
Haverford, Pennsylvania
Medical Residents, Fellows, and Doctors of Nursing Practice (DNPs)-in-Training Reporter Scholarships

This program, supported by a grant from Pfizer, Inc., provides 30 medical residents, fellows and DNPs-in-training the opportunity to attend the NAMS Annual Meeting. Recipients prepare a presentation from the content at the meeting to share with colleagues when they return home.

CONGRATULATIONS

NAMS Congratulates the Recipients of the 2017 Awards, Scholarships, and Prizes
Abstract and Poster Prizes

NAMS New Investigator Travel Awards
Recognizing the outstanding abstract submissions of three investigators who have achieved their degrees within the past 7 years.

Carolyn J Gibson, PhD, MPH
San Francisco, California
Interpersonal Violence, Posttraumatic Stress Disorder, and Menopause-Related Sexual Dysfunction in an Ethnically Diverse, Community-Based Sample of Women

Julia K Prague, MBBS, BSc, MRCP (UK)
London, United Kingdom
Neurokinin 3 Receptor Antagonism Is a Highly Effective, Novel Treatment for Menopausal Hot Flushes With Rapid Onset: A Phase 2, Randomised, Double-Blind, Placebo-Controlled Trial

Daniella Wald Spielman, MBS, BA
New Brunswick, New Jersey
Total Vaginal Thickness Correlated With Years Since Menopause and Genitourinary Syndrome of Menopause

NAMS Poster Prizes
All poster presentations will be eligible for one of the available poster prizes awarded during the Annual Meeting. The winner of the first-place prize will receive a cash award of $1,000, and up to three others will each receive an award of $500.

The announcement of Poster Prizes will be made on Saturday, October 14, at 8:00 AM.

Poster Session and Wine and Cheese Reception

6:00 PM – 7:00 PM
Thursday, October 12, 2017
Franklin Hall (4th Flr)
Supported by grant funding from EndoCeutics, Inc.
2017 Abstract Review Committee

NAMS attendees are encouraged to attend each of the Plenary and Scientific Sessions that will feature the top-scoring abstracts and also participate in the Poster Sessions, where you are afforded a valuable opportunity to interact with the presenters.

Committee Members

I Cori Baill, MD, NCMP
Frank Bonura, MD, NCMP

Featured Posters

The Abstract Review Committee has selected three posters to be featured during the Poster Session on Thursday, October 12, from 6:00 PM to 7:00 PM. The presenting author of each of the three selected posters will give a 5-minute oral “run through” of his or her poster, followed by a 5-minute Q&A with attendees.

6:00 PM - 6:10 PM
The Vulvovaginal Atrophy Questionnaire (VVAQ): A Novel Patient-Reported Outcome (PRO) for Assessing Symptoms of Vulvovaginal Atrophy in Menopausal Women
Jan L Shifren, MD, NCMP

6:10 PM - 6:20 PM
Flibanserin in Postmenopausal Women With Hypoactive Sexual Desire Disorder: Responder Analysis of a Randomized, Placebo-Controlled Study
James A Simon, MD, CCD, NCMP, IF, FACOG

6:20 PM - 6:30 PM
Total Vaginal Thickness Correlated With Years Since Menopause and Genitourinary Syndrome of Menopause
Daniella Wald Spielman, MBS, BA
All participants are encouraged to visit the commercial exhibits located in Franklin Hall F (4th Floor).

Ample time is provided to review and discuss the latest products and services with company representatives. At press time, the companies on the next pages had reserved exhibit space. NAMS is grateful for their support of the meeting.

**Exhibit Hours**

**Thursday, October 12**
- 9:30 AM – 11:30 AM
- 1:00 PM – 3:30 PM
- 6:00 PM – 7:00 PM  In-Hall Reception

**Friday, October 13**
- 9:30 AM – 12:00 NOON
- 2:30 PM – 4:15 PM

**Notice**

The appearance of products and services presented in the Exhibit Hall does not constitute a guarantee of the promoted product or service by NAMS.

**NAMS Policy Regarding Children in the Exhibit Hall**

For the protection of your children and in order to maintain the scientific nature of the display, no children under the age of 18 (with the exception of infants carried in arms or in body harnesses at all times) will be permitted in the Exhibit Hall during show hours. Strollers are not permitted in the Exhibit Hall at any time.

**Passport Program**

We are pleased to once again offer the popular Passport Program. Visit the designated number of exhibitors posted on the Exhibit Hall Passport form you received in your attendee briefcase to be eligible for the drawing to win free registration to the NAMS 2018 Annual Meeting in San Diego, California (October 3-6, 2018). Recipient must be in the Exhibit Hall on Friday, October 13, at 3:35 PM to be eligible to win.

</table>

Allergan plc (NYSE: AGN) is a bold, global pharmaceutical company focused on developing, manufacturing, and commercializing branded pharmaceutical, device, and biologic products for patients around the world.

Alma Lasers is a global innovator of laser, light-based, radiofrequency, and ultrasound solutions for the aesthetic and surgical markets. We enable practitioners to offer safe and effective procedures while allowing patients to benefit from state-of-the-art, clinically proven technologies and treatments.

AMAG Pharmaceuticals INTRAROSA (prasterone) vaginal inserts is an FDA-approved treatment indicated for moderate to severe dyspareunia due to menopause. INTRAROSA is now available for prescribing.

ASCEND Therapeutics promotes a transdermal estradiol gel for the treatment of menopause symptoms.

Aytu BioScience, Inc. Fiera is a women’s personal care device that was developed with ob/gyns to enhance physical arousal and jump start sex drive naturally.

BioFilm, Inc. We exist to inspire any and every individual to explore pleasure and intimacy unlike any other with our products. As one of the world’s top-selling personal lubricants, Astroglide creates smooth, long-lasting sexual experiences with our trade secret formula that provides the highest level of slipperiness and retains its lubricating property for hours.

Church & Dwight Co. Inc. introduces Women’s Healthcare Solutions—a comprehensive portal covering a portfolio of women’s healthcare brands and products such as RepHresh and Replens, which help treat menopause symptoms. Women’s Healthcare Solutions offers valuable resources to help support your product recommendations.

MonaLisa Touch is a revolutionary fractional CO2 laser treatment for the painful symptoms of menopause, including intimacy. It is the only technology for vaginal and vulvar health with more than 18 published studies and is sold exclusively to experts in female pelvic health. Patients are calling it life changing.

Osphena is the only oral treatment for moderate to severe painful sex, a symptom of vulvar and vaginal atrophy due to menopause.

Exeltis USA, Inc. is the result of the natural evolution and sustained growth of the CHEMO pharmaceutical business, an integrated health sciences group. It combines the group’s know-how and experience with the innovative spirit of Exeltis, becoming a global organization with the capacity to discover, develop, produce, and market medicinal products and medical devices that can help to improve the quality of life of millions of people worldwide.

The US Food and Drug Administration Office of Women’s Health addresses the health issues of the nation’s women by disseminating free fact sheets and brochures on a variety of health topics including menopause, safe medication use, mammography, and heart health.

Genneve’s moisturizers, lubricants, and cleansers were designed to replace the natural moisture women lose as they age. They are pH balanced to maintain the body’s natural chemistry; nonstaining; free of parabens, hormones, and fragrances; long-lasting; and safe for daily use.
Good Clean Love, Inc.
#117
207 West 5th Avenue, Eugene, OR, 97401
541/344-4483 [www.goodcleanlove.com](http://www.goodcleanlove.com)

Good Clean Love is a revolutionizing the sexual health products industry with organic solutions for intimacy and feminine hygiene. Our vision is to be the world's trusted resource for natural sexual well-being products and essential education and information.

International Menopause Society
#116
PO Box 751, Truro, Cornwall, TR2 4WD, United Kingdom
44/1726-884221 [www.imsociety.org](http://www.imsociety.org)

The International Menopause Society (IMS) has grown as the only menopause society with a global responsibility to guide women, healthcare providers, and the media through the journey of menopause. The biennial IMS World Congress has been a major instrument in attaining this goal. The scientific content of the Congress will promote and advance communication, education, and research on all aspects of the health of adult women worldwide.

JDS Therapeutics, LLC
#100
1 Manhattanville Road, Suite 104, Purchase, NY 10577
914/701-4500 [www.jdstherapeutics.com](http://www.jdstherapeutics.com)

JDS Therapeutics seeks to optimize human health and wellness through the rigorous study and development of natural, bioactive substances. JDS has two products on the market: Relizen for hot flashes during menopause and Serenol for the emotional symptoms of PMS.

Kimberly-Clark
#417
2300 County Road II, Neenah, WI 54957
[www.kimberly-clark.com](http://www.kimberly-clark.com)

Kimberly-Clark is a global consumer goods company with leading brands sold in more than 175 countries. At Kimberly-Clark, developing and acquiring new technologies has enabled the creation of innovative products and design solutions across our personal care, consumer tissue, healthcare, and business-to-business segments.

Laclede Inc.
#416
2103 East University Drive, Rancho Dominguez, CA 90220
310/605-4280 [www.luvenacare.com](http://www.luvenacare.com)

Laclede Inc. is the manufacturer of Luvena vaginal health products, specializing in vaginal dryness. Luvena products containing natural enzymes are free from harmful ingredients such as parabens, hormones, and chlorhexidine.

Lioness
#419
2001 Addison Street, Suite 300, Berkeley, CA 94704
347/725-1026 [www.lioness.io](http://www.lioness.io)

The Lioness looks like a normal vibrator, but when paired with the Lioness app, it helps you learn more about your own, unique body's sexual response. Understand how your body changes over time (like through menopause) and what works best for you.

Lumenis
#118
2033 Gateway Place, San Jose, CA 95110
408/764-3000 [www.lumenis.com](http://www.lumenis.com)

A mutual collaboration with leading experts in the development of FemTouch—a vaginal laser procedure driven by practitioners and women's needs.

Lunada Biomedical
#415
6733 South Sepulveda Boulevard, Suite 115, Los Angeles, CA 90045
310/568-1048 [www.amberen.com](http://www.amberen.com)

Amberen is a nonhormone, succinate-based dietary supplement that manages multiple menopause symptoms. Amberen’s safety and statistically significant efficacy was demonstrated in three randomized, double-blind, placebo-controlled clinical trials. Amberen is available for purchase at major retailers nationwide.

Mylan Inc.
#411
1000 Mylan Boulevard, Canonsburg, PA 15317
724/514-1800 [www.mylan.com](http://www.mylan.com)

Mylan is one of the world's leading global pharmaceutical companies, committed to setting new standards in healthcare. Our portfolio of more than 7,500 marketed products includes generic, brand name, and over-the-counter medicines in a variety of dosage forms and therapeutic categories. We market our products in more than 165 countries and territories. Our global R&D and manufacturing platform includes more than 50 facilities.

OBG Management
#104
7 Century Drive, Suite 302, Parsippany, NJ 07054
973/290-8228 [www.obgmanagement.com](http://www.obgmanagement.com)

OBG Management is the only publication in the specialty that addresses patient care and practice management under one cover. It offers timely, evidence-based insights into the myriad clinical, medicolegal, and practice-management issues faced by today's obstetricians and gynecologists.

Pfizer
#105
235 East 42nd Street, New York, NY 10017
212/733-2323 [www.pfizer.com](http://www.pfizer.com)

At Pfizer, we apply science and our global resources to bring therapies to people that extend and significantly improve their lives. Every day, Pfizer colleagues work across developed and emerging markets to advance wellness, prevention, treatments, and cures that challenge the most-feared diseases of our time.
Pharmavite/INNATE Response  
#317  
8510 Balboa Boulevard, Northridge, CA 91325  
818/221-6200  www.pharmavite.com

For more than 45 years, Pharmavite has been a leader in the health and wellness industry and has earned the trust of consumers, healthcare professionals, and retailers alike by offering quality vitamins, minerals, and herbal supplements through our brands Nature Made® and FoodState. Founded in 2003, INNATE Response™ is committed to wholistic health practitioners who recognize that the body knows what to do if we let it. We manufacture a line of carefully formulated, plant-based products that strengthen and support the body’s own innate healing responses.

Pulse  
#410  
2212 Queen Anne Avenue, North #269, Seattle, WA 98109  
206/910-8332  www.lovemypulse.com

Created for women entering midlife and menopause, the Pulse warming dispenser gently warms our lubricants and delivers them mess free. Pulse personal lubricants soothe and moisturize, offering a long-lasting, natural slickness that never gets sticky.

Radius Health, Inc.  
#210  
950 Winter Street, Waltham, MA 02451  
617/551-4000  www.radiuspharm.com

Radius is a science-driven biopharmaceutical company committed to developing innovative therapeutics in the areas of osteoporosis, oncology, and endocrine diseases. Established in 2003 by world-renowned researchers, our history is rooted in science and our R & D efforts are focused on disease areas with unmet needs.

RB  
#110  
399 Interpace Parkway, Parsippany, NJ 07054  
www.rb.com

K-Y lubricants and moisturizers are part of the K-Y Essentials Collection. The collection consists of water- and silicone-based personal lubricants that come in liquid, gel, and jelly formulations. It also includes a moisturizer that comes in an ovule insert. All K-Y lubricants and moisturizers are hormone free and are available without a prescription.

Sciton, Inc.  
#115  
925 Commercial Street, Palo Alto, CA 85297  
888/646-6999  www.sciton.com
