

## Your Company Is Invited to Become a Member of the 2022 NAMS Corporate Liaison Council

The North American Menopause Society (NAMS), now in its 33rd year, is the leading nonprofit scientific organization dedicated to promoting the health and quality of life of all women during midlife and beyond through an understanding of menopause and healthy aging. NAMS cordially invites all companies with a business interest in menopause and aging to become a member of the 2022 NAMS Corporate Liaison Council. This program fosters the interchange of ideas between companies and NAMS to further the Society's Mission. Membership dues are \$8,000 for calendar year 2022.

### **Benefits of Membership**

- One complimentary individual membership in NAMS for the designated Council executive (the NAMS “point person” at company headquarters) for the full calendar year of 2022, providing all member benefits (eg, subscriptions to *Menopause*, *First to Know*, *Menopause e-Consult*, *Practice Pearls*, and *Menopause Care Updates*).
- One complimentary registration for a designated Council employee for the NAMS 2022 Annual Meeting, to be held October 12–15, in Atlanta, GA.
- Preferred consideration of booth space in the Exhibit Hall at the NAMS 2022 Annual Meeting.
- Recognition signage at the NAMS 2022 Annual Meeting, plus acknowledgement from the podium and on General Session slides. Plus, up to 20 “Corporate Liaison Council” ribbons for company representatives’ name badges.
- One complimentary registration for a designated Council employee for the NAMS Pre-Meeting Symposium and Menopause 101 Course held at the NAMS 2022 Annual Meeting.
- Recognition on the NAMS Website, plus a link to the Council company’s corporate Website.
- One complimentary copy of any new NAMS educational materials.
- An invitation for a designated 2022 Council executive (preferably the NAMS “point person” at company headquarters) to participate in a stimulating half-day meeting and dinner with the NAMS Board of Trustees at its Annual Retreat, to be held in Spring 2023 in Florida—believed by many to be the most valuable of all the program’s benefits.
