

Credentialed NAMS Menopause Practitioners

(as of February 1, 2018)

What is a NAMS Menopause Practitioner?

A few years ago, The North American Menopause Society (NAMS) recognized a need to set essential standards for health providers, thereby assuring high quality care for women at menopause and beyond. To meet this need, NAMS developed a competency examination. All licensed healthcare providers are eligible to sit for this examination. Those who pass demonstrate their expertise in the field and are awarded the credential of NAMS Menopause Practitioner. They receive a certificate designating their achievement.

The NAMS Menopause Practitioner credential is valid for three years. The credential can be maintained by either passing a new examination every three years or submitting appropriate continuing medical education credits that demonstrate ongoing education in the field.

Women deserve the best.

NAMS believes that women at menopause and beyond deserve the best. Refer to the alphabetical list below for the healthcare providers who have earned the Menopause Practitioner credential. Please note, however, that not all of those listed are available to see patients.

NOTICE: This listing is strictly for the exclusive use of referencing healthcare providers who have earned the NAMS credential. Any unauthorized use, including promotional efforts, is strictly prohibited.
