

NAMS Certified Menopause Practitioners

(November 3, 2009)

What is a NAMS Certified Menopause Practitioner?

A few years ago, The North American Menopause Society (NAMS) recognized a need to set essential standards for health providers, thereby assuring high-quality care for women at menopause and beyond. To meet this need, NAMS developed a competency examination. All licensed healthcare providers are eligible to sit for this examination. Those who pass have demonstrated their expertise in the field and are awarded the credential of **NAMS Certified Menopause Practitioner** or "NCMP." They receive a printed certificate and a lapel pin designating their achievement.

The NAMS Menopause Practitioner credential is valid for three years. The credential can be maintained by either passing a new examination or submitting appropriate continuing medical education credits that demonstrate ongoing education in the field.

Women deserve the best

NAMS believes that women at menopause and beyond deserve the best healthcare providers. Refer to the alphabetical listing below for the healthcare providers who currently hold the Menopause Practitioner credential. Please note, however, that not all of those listed are available to see patients or new patients. The Society does not necessarily endorse or recommend any of these clinicians. However, these clinicians have demonstrated special competency in the field of menopause by passing an examination that led to the credential of NAMS Certified Menopause Practitioner. We hope that this list will help in finding a clinician who is right for you.

NOTICE: This list is for the exclusive use of women seeking a healthcare provider who has earned the NAMS credential. Any unauthorized use, including promotional efforts, is strictly prohibited.
